CALL about H.R. 2998* AGAIN, This Morning!!!!

***H.R. 2998 was originally H.R. 2454 and is now 1201 pages long.**

Pelosi is pushing for a vote on the energy tax bill NOW!

“Americans should know that those Members [of Congress] who vote for this climate bill are voting for what is likely to be the biggest tax in American history.”

– *The Wall Street Journal*, June 26, 2009

PROPOSED AMENDMENTS NOT ALLOWED:

- Suspend the program if gas hits \$5 a gallon. **REJECTED!**
- Suspend the program if electricity prices rise 10% over 2009. **REJECTED!**
- Suspend the program if unemployment rates hit 15%. **REJECTED!**

“Whether you call it a tax, everyone agrees that it’s going to increase the cost to the consumer.”

– Charlie Rangel, (D-NY), *Congress Daily*, May 14, 2009

Cost per family of four in 2020 will be \$1,870. Then, \$6,800 by 2035.

Total cost in 2020 will be \$161 billion.

– **Heritage Foundation**

“The hit to GDP is the real threat in this bill. The whole point of cap and trade is to hike the price of electricity and gas so that Americans will use less. These higher prices will show up not just in electricity bills or at the gas station but in every manufactured good, from food to cars. Consumers will cut back on spending, which in turn will cut back on production, which results in fewer jobs created or higher unemployment. Some companies will instead move their operations overseas, with the same result.”
