Urgent! Senate Could Vote on Hate Crime Bill July 15th!

S.909 Must be defeated!

Call or fax NOW! The pressure for passage is GREATER than ever!

- Hate crimes legislation assures special protection for anyone claiming variant gender identities or sexual orientations.
- A federal hate crime law would provide national affirmation of all sexual orientations and mandate additional punishment from the federal government, if state hate crime penalties are not deemed harsh enough.
- Negative comments about alternate lifestyles or variant gender identities could be prosecuted as “hate speech.”
- Bible teaching or preaching on adultery, fornication or homosexuality could be prosecuted as “hate speech,” as occurs in countries with hate crime laws.
- A federal hate crime law would minimize the effect of all state sex crime laws, by providing extra protection for 547 unusual sexual practices, including but not limited to the following:

pedophilia

lewd exhibitionism

statutory rape

prostitution

incest

voyeurism

necrophilia

bestiality
